Gloss tip

"All skin types need to be moisturised, to balance the oil levels & offer a protective barrier from the elements."

SARAH CHAPMAN INSTANT MIRACLE MASK

Price £38 for four

Buy online www.sarahchapman.net

Feedback "If you're the sort of person who likes playing with candle wax, then you'll love this Sarah Chapman mask. It comes in its own cocktail shaker: you just add warm water and mix it up. Then you spread it on your face like butter, using the spatula that comes with it, and leave it to set. Warning: it's not the most attractive of masks, so best wait until everyone's gone out before you deploy it.

"After about 15 minutes, you just peel it off - an immensely satisfying experience. It'll come off more or less in one piece, like one of those silicone masks that baddies use in films to disguise themselves as someone else. Underneath, your skin will be super-soft, firmer, brighter and generally much improved. Perfect for a pre-party pick-me-up, or if you're just feeling dull and wintry."
