

The colour red — always on trend

BUT WE'RE HAVING A TOTAL
LOVE AFFAIR RIGHT NOW

Kirstin Piggott, Rimmel London's global
make-up artist, on perfecting the ultimate red lip:

- 1 Buff and balm lips before applying lipstick for an all-over smooth finish.
- 2 Use a lip brush – it gives more control than applying direct from the bullet.
- 3 Apply, blot lips with a tissue, then layer another coat for a long-lasting effect.
