SLEEP ON IT

Night treatments are a great way to hydrate. Sarah Chapman's Overnight Body Treatment, £49, is transformative and skin will drink it faster than you can say Naomi Watts (she swears by it)! Elizabeth Arden's Eight Hour Cream Skin Protectant Nighttime Miracle Moisturizer, £32, is a spa-quality skin smoother that works with your skin's natural cycle and seals in moisture. And QMS Night Collagen, £75, provides skin with super-effective hydration thanks to skin-plumping collagen. They will *all* get people asking if you've had a facial, we promise.
