NECK'S BEST THING

THE NECK AND CHEST ARE OFTEN THE FIRST PLACES TO SHOW THE SIGNS OF AGEING - OUR FASHION AND BEAUTY DIRECTOR ROSIE UNDERWOOD TESTS THE BEST FIRMING TREATMENTS

CLARINS EXTRA-FIRMING NECK ANTI-WRINKLE REJUVENATING CREAM, £45

Clarins' signature Extra-Firming Complex is fused with powerful green seaweed and sunflower extracts to give any slackening the wake-up call it needs. The formula is greasy and melts into the skin effortlessly. I noticed extra firmness within a week.

ELIZABETH ARDEN PREVAGE ANTI-AGING NECK AND DECOLLETE FIRM & REPAIR CREAM, £85

One of the latest additions to the PreVage family fights the elements just as well as the rest of the range by using a protein-restoring complex. The formula is thick, so for best results massage it in with gentle, fast movements.

OLE HENRIKSEN ULTIMATE LIFT NECK CREME, £40

Despite its thick consistency, this cream is quickly absorbed into the skin and the lifting agents work almost instantly. I loved how the botanical ingredients give it a gorgeous, subtle scent.

ELEMIS PRO-COLLAGEN LIFTING TREATMENT NECK AND BUST ANTI-AGEING, £73

The hefty price tag won't faze you once you see the results! I applied four pumps of this formula to the neck, décolleté and bust area morning and night, noticing smoother skin and tightening in difficult areas. Plus, one tube lasted me about three months!

SARAH CHAPMAN FACIALIFT, £25

This beauty mimics the actions of an intense facial that you can use at home. For tackling neck issues, push and roll the tool's 48 massage modules from below the chin to the base of the neck. You can use it alone or, for best results, with a neck cream.
